ENGAGE INSPIRE EMPOWER

**Natural
Encounters
Inc.**

**Natural
Encounters
Inc.**

Natural Encounters, Inc. (NEI) is a world leader in positive-reinforcement animal training. We have served more than 120 facilities in over 20 countries, offering our expertise in animal and staff training, the production and presentation of educational programs, exhibit design, and enrichment.

With the use of innovative, industry-leading technology, the **NEI** team of trainers has worked with hundreds of species of animals and has taught the art and science of behavior change to thousands of people.

Our goal is threefold: to **Engage, Inspire, and Empower** audiences and animal professionals all over the world by teaching the art of training and the science of behavior change.

Natural Encounters, Inc. is dedicated to the conservation of wildlife and wild spaces. To directly support these efforts, the **Natural Encounters Conservation Fund (NECF)** was created as a sister company to serve as our non-profit arm. It is a private 501(c) 3 that is dedicated to promoting wildlife and environmental conservation through education and fundraising. To date, **NECF** has donated over **\$1,300,000** to *in situ* conservation projects, including the following:

- World Parrot Trust
- Turtle Survival Alliance
- The Peregrine Fund
- New Nature Foundation
- Moholoholo Wildlife Rehabilitation Centre
- International Rhino Foundation
- Mbula Ground Hornbill Project
- VulPro

NECF is supported entirely by **Natural Encounters, Inc.** and has no paid employees; therefore, one hundred percent of the proceeds raised through **NECF** go directly to the conservation projects it supports.

NECF makes its greatest impact on our environment by providing assistance where it is needed and encouraging, supporting, and rewarding conservation efforts. In addition, **NECF** promotes educational programs that help people understand their relationship with the species we share this planet with, as well as our undeniable dependency on the living earth.
